* Rock Jamfest - 1st - 19
* Pittsburgh Spring Classic, 1st - 19

Personal Message from Amelia Perri

I am a versatile student-athlete who excels in sports and in the classroom. For the past six years, I have played both softball and basketball at the highest levels while maintaining a 4.62 weighted GPA with a full load of honors classes. My dream is to play competitive softball at a high-academic college that can prepare me for a career in a STEM-related field.

I attribute my success on the diamond and in school to three key personal traits - determination, critical thinking, and eagerness to learn. Determination fuels my competitive drive and pushes me through the frustration of long hours in the batting cage when a swing change does not bring immediate results. I use that same determination in the classroom to improve my writing because it is not a skill that always comes naturally to me. In softball, my critical thinking abilities compel me to understand the "why" behind good hitting and throwing mechanics so that I can build better instincts. In the academic setting, critical thinking leads me to explore and understand the world around me. Finally, my eagerness to learn allows me to be coachable and open to better methods for improving my skills. In school and in life, it helps me adapt to new conditions, embrace failure, and remain humble.

As I continually strive to become the best version of myself, I have learned that these three attributes are at the core of who I am as an athlete and a student. Together they have shaped me into the kind of person who leads by example, and the kind of teammate and classmate who tries to inspire the people around her to give their best effort and reach their full potential.

Already demonstrating D1 talent. OUTFIELD: Good footwork, tracks very well. Very good at turning to the target and using full body on throws. Quick aggressive movement to and through the ball, particularly on grounders. Has good glove positioning on fly balls and grounders. Very quick glove/hand transition. Elbow could be higher on throws. Steps directly toward target, good follow through on throws. Very accurate throws through the cutoff to her target. Needs to develop a crow hop. OUTFIELD arm: 60 MPH with a 3.03 pop time from 150 feet. (D1 outfield skills.) INFIELD: Third baseman with a good ready position. Very good footwork and glove work. Soft hands. Fluid mobility. Angles well and moves through the ball. Live arm, very good glove/hand transition, good follow-through. Aggressive with very good range and accuracy. Can play middle infield. Quick turns on double plays. Knows how to time steps to the bag, good step-back. Infield arm: 56 MPH with a 1.91 pop time across the infield. Rated 38 (High level D2 field skills.) BATTING: Good stance, but could use a better trigger step and weight transfer. Solid base, average head, good hands. Some aggressiveness through the zone, above average contact with the ball, demonstrates some power. Bat speed: 68 (above average for her age). RUNNING: Working to improve running form and speed. Home-to-1st - 3.47; Home-to-home - 13.47. (Times from contact.)

Ron Vrana, National Scouting Report Area Director/Scout, 412-298-6850, rvrana@nsr-inc.com
