Shippensburg University pitching camp -21

Umpire - Greater Pittsburgh Girls softball league 21

Personal Message from Anne Melle

Playing in college has always been a goal of mine since I started playing. I always looked up to and wanted to be like the older girls. Now, the younger girls can look up to me because of my success on the field. In the summer, I take time out to help some of the younger girls, because when older girls did that for me it always made me want to be like them. I love the game so much that I can't think of the day without it. In school, I maintain a high GPA in one of the top schools in the nation. I am currently exploring what major I will take in college.

In my journey so far, I've been the winning pitcher many championship games in several tournaments and helped my team achieve what many thought impossible. I've done this by pitching, playing the field and batting against some of the top teams in the area. My pitching coach always says, "at the start of the game the umpire points to you in the circle and says, "Play ball." By this she means that I control the game, no one else. It is mine to win the game for my team, which is important to me because I enjoy having the power to have the best outcome for the game.

Softball has really made a difference in my life. It has given me not just work ethic, communication skills and competitiveness, it also has given me friendships and a family. I continue to work hard and I look forward to what my future holds.

Ron Vrana, NSR area director/scout, 412-298-6850, rvrana@nsr-inc.com

December 2021..)

opposite field. (Pitch speeds clocked at University of Pittsburgh camp, with power or lay down a bunt for a hit. Likes to take the outside pitch to the Gets arms extended and makes solid contact with the ball. Can hit the gaps clean-up. Aggressive. 69 MPH bat speed. Level swing, keeps bat on path. base from contact. Home-to-home: 12.88. A middle line-up batter, usually Infield arm: 53 MPH. Accurate throws. Quick turns Fast. Runs 3.2 to first batter. Also plays shortstop. Good lateral mobility, particularly to glove side. developed an effective screwball with good movement. Throws the screwball at 63 MPH. Has a 59 MPH curve ball that has late movement in or out on the screwball. Also throws a change-up (51 MPH) and drop (56 MPH). Has late. Gets good movement, particularly in on a RH hitter, much like a Has a 63 MPH fastball with 24 rotations. Fastball has good carry and breaks school upperclassmen. Good mechanics and placement. Reads batters well. focused athlete who thrives on pressure situations. Has a knowledge and Considered the top pitching prospect in the region for her grad year. Highly
